

## Policy statement

The children access our outdoor area twice a day as it is vital they experience the environment and different weather conditions. We aim to keep them warm in the winter and protected from the sun in the summer.

## Procedures

- All children need to arrive at nursery with suncream already applied.
- Staff will re-apply Suncream before the children go out in the sun after lunch.
- In the case of any allergies parents will need to provide their own named suncream.
